of this beloved nightly petition.

The prayer is famously short and direct. The most common version reads: "Now I lay me down to sleep, I pray the Lord my soul to keep. If I should die before I wake, I pray the Lord my soul to take." For many, this final couplet about death can seem stark, especially when taught to young children. Today, many parents and caregivers opt for gentler versions, but the core theme remains: a trust in a higher power for protection and safekeeping through the night.

The Historical Roots of a Classic Prayer

Understanding the background of this prayer helps us appreciate its depth. While the exact origin is debated, the **Bedtime Prayer Now I Lay Me Down To Sleep** is most often attributed to the 18th century. America. The primer was designed to teach children reading, writing, and religious principles. The prayer was included as part of the evening exercises for children, alongside the alphabet and other moral lessons.

The New England Primer and Early American Faith

In the *New England Primer*, the prayer was presented with a few additional lines that are often omitted today. The full version in that text was: "Now I lay me down to sleep, I pray the Lord my soul to keep; If I should die before I wake, I pray the Lord my soul to take; And this I ask for Jesus' sake. Amen." This version explicitly ends with a reference to Jesus Christ, grounding the prayer firmly in Christian theology. The Primer was a staple in Puritan households, where education and religion were deeply intertwined. The prayer served as a nightly reminder of God's sovereignty and the importance of a soul prepared for eternity, even in childhood.

The Prayer's Evolution Over Centuries

As the prayer traveled through time and

across denominations, it evolved. Some versions dropped the closing line "And this I ask for Jesus' sake" to make it more universal. Others softened the reference to death. A popular modern variation replaces the second couplet with something like, "Guide me safely through the night, and wake me with the morning light." This adaptation maintains the request for protection while removing the anxiety about potential death. The **Bedtime Prayer Now I Lay Me Down To Sleep** has also been set to music, appearing in lullabies and hymns, further cementing its place in the fabric of childhood.
